All communications must be accompanied by the names of the authors, and rejected communications cannot be returned.

"MISS FLITE." -- The thousands of our citizens who have, during the last ten years, visited the Criminal Court have observed, a little apart from the crowd of spectators, seated upon the raised platform in the corner of the room, a little faded woman, beyond middle age, somewhat fantastically dressed in clean but dilapidated clothing. Her bonnet has sometimes a feather somewhat jauntily disposed therein, and she is as careful in the arrangement of her tawdry finery and many flounced skirts, as if they were of the costliest material. Nearly every day, for the last ten years, she might have been seen in her accustomed place, sometimes busily engaged in sewing, and patiently and quietly waiting for the long expected decision in her imaginary case relating may be found from 8 a. m., to 6 p. m., daily: to property. So long has she been an attendant upon the sessions of the court that her personal history, the cause of her mental derangement, and even her name, are unknown to the officials of the court. Her residence and means of living are equally matters of conjecture. Those who have read Dickens's "Bleak House" will be reminded of the description of Miss Flite, in connection with the celebrated chancery case of Jaundyce and Jaundyce-"a little madold woman in a squeezed bonnet, who is always in court, from its sitting to its rising, and always expecting some incomprehensible judgment to be given in her favor. Some say, she really is, or was, a party to a suit, but no one knows, and no one cares." The above desshe has been given the name of "Miss Flite," and by that name only is she known to the habitues of the Court House. Our "Miss Flite" was not long since presented with a white morning wrapper, much too long for her

small figure, which she once wore in the street.

the court room, and live on, hoping for the

woman. - Baltimore Sun.

CURE FOR YELLOW FEVER. - Considerable attention is paid by the press of the West Indies to a cure recently adopted by a physician in Jamaica, Dr. Alex. Fiddes, F. R. C. S. E. It has run the rounds of the Spanish, English, French, and Danish journals, and everywhere meets with the highest encomiums. Several of the Governments interested in the West Indies have set apart hospital buildings for the special treatment of yellow fever under Dr. Fiddes' process. As that made for every ten days, or parts thereof.

drawd discous is making considerable rayages feb 25-tf C. F. SUTTLE. dread disease is making considerable ravages in the Southern part of the United States, we give the following account of the treatment:

Calomel, quinine, and all other medicines are set aside, as being not only useless, but posi-tively injurious. The only medicine recom-mended is a full dose of caster oil at the beginning of the disease. The remedy of Dr. Fiddes then consists in the internal administration of sulphurous acid, combined with the external application of iced sheets around the external application of iced sheets around the body, when the skin is hot and dry, or with an occasional vapor bath when the skin is dry without being very hot. The sulphurous acid is not size in the part of the size of th is not given in its pure form, but combined with an alkaline base, such as the bi-sulphite of soda, the sulphite of magnesia or potash, or of ammonia, of which the former preparation is probably the best, being tasteless and not likely to offend the stomach. The dose is twenty grains every two or three hours, in a glass of water.

The use of sulphurous acid and the application of the wet sheets or vapor bath are indicated as much by the dictates of theory as by the lessons of experience. The first is a preventive against fermentation of the blood; the two latter are potent agencies for withdrawing poisonous matter from the body without weakening the vital powers.

Since Professor Polf, of Milan, instituted his elaborate series of experiments to test the efficacy of sulphurous acid is arresting fermentation in the blood of animals, and since Dr. De Ricci, of Dublin, and Prof. Burgraeve, of Ghent, repeated the same, the therapeutical power of this medicine has been well known to the medical profession. But Dr. Fiddes is entitled to the credit of having introduced it as a remedy for yellow tever and several other diseases of the zymotic family.

HUGO ON CAPITAL PUNISHMENT. -The great Red Republican is out once more in one of his peculiar spasmodic epistles. The lyre of the poet was struck by a communication from a above goods, to which the attention of purchas-Portuguese politician aproposi of the abolition of capital punishment, and thus gushes:

HAUTEVILLE House, 15th July. "A. M. Pedro de Brilo Aranna .

"Your noble letter has moved my heart. "I had learned the great news, but I have received through you its sympathetic echo. "No, there are no small people.

"And sometimes it is these small men who lead great people.

"A people who are despots are like hounds that require to be muzzled.

"I love and glorify your noble and dear Portugal. She is free, therefore she is great.
"Portugal has abolished capital punishment! "To accomplish this great advance is to build

up the great safeguard of civilization. head of Europe. "You Portuguese have now ceased to be

nobler than to discover worlds. "I exclaim, glory to Portugal! and to you, Monsieur, haypiness.
